My only complaint is that the "True Colors" sheet music included here is for Phil Collins' 2002 version of the song, not Justin Timberlake's (and not even Cyndi Lauper's original version of the tune). Bad move, Hal Leonard. 0 of 0 people found the following review helpful. Much better to get the collection, than single songs at other places. By C. Kanode My daughter wanted the sheet music to one song - I don't remember the site, but for just a few dollars more, I got all the songs from the movie, and she has found several that she likes. Some of the songs are a little advanced for her, but she'll be playing them soon enough.
